Twenty-six pupils from the first course of the bilingual program accompanied by two teachers, Flori and Antonio, have attended an English language immersion camp in the High-speed Center for Athletes in Los Narejos. The course called **Welcome to Young Britain** offered our students: native English teachers, full accommodation, classes which encompass British culture and language each morning, while afternoons were focused on typical British sports activities. Evenings allowed our pupils to relax and enjoy entertainment to practise their English levels while still having fun. We can conclude that it has been a wonderful experience.
